

JOHLEEN KOH TSE BOON

Facilitator

JOHLEEN KOH is the Co-Founder - CEO of Knowledge: New Old Twists (KNOTs), a social enterprise that champion quality and inclusive education (SDG4) for all through education for sustainable development (ESD).

She is a marine scientist by qualification. Her love for environmental education spurred when she started her consultancy career which eventually led her to education for sustainable development (ESD) with WWF-Malaysia for more than 9 years. At WWF-Malaysia, she developed her passion for designing and training young environmental stewards and leaders which led her to KNOTS.

Learning & Development Experience

- Designed, implemented, facilitated and organised programme for over 1000 children and youths and over 500 educators since 2011.
- Led and managed several youths- projects in WWF-Malaysia.
- Designed and organised more than 50 educational field trips, conferences (Building Bridges for Sustainable Consumption and Production series), story-telling platforms (Sembang@WWF series) workshops (7-Step Methodology) and programmes (Green Mentor and Green Mentor Alumni for the Eco-Schools Programme) for children, youth and educators. Where 350 Green Mentors and 30 Green Mentor Alumni were nurtured to be advocates of education for sustainable development in their respective field.

Current Work Activity

- Programme design and content development for KNOTs.
- Content development for KNOTs social media.
- Youth leadership training and facilitation.
- Sustainable consumption and production advocate with Bekas Botol Project.

Previous Work Activity

- Building Bridges for Sustainable Consumption and Production series, WWF-Malaysia.
