

CERTIFIED ACCELERATED LEARNING FACILITATOR (CALF)

Program Overview:

The CALF program equips facilitators with the skills, tools, and strategies to design engaging, learner-focused experiences using Accelerated Learning principles. Divided into three comprehensive parts—covering theory, application, and practice—it ensures participants can craft impactful, dynamic learning environments that foster deep understanding, collaboration, and transformation.

The program also emphasizes adaptability and creativity, empowering facilitators to inspire and transform learners across diverse contexts with confidence and effectiveness.

What Will You Gain:

As an aspiring Accelerated Learning Certified Facilitator, you'll be able to:

- Apply Accelerated Learning Cycle with confidence, be it in designing or facilitating programs.
- Utilise the Accelerated Learning Pillars in an effective manner in order to optimise learning experience.
- Develop certainty in achieving learning objective while creating a delightful learning experience.
- Achieve mastery in developing a systemic learning and development program.
